

GW4 BioMed2 MRC Doctoral Training  
Partnership

# Project Call 2022-23

Supervisor Expectations

## Supervisor Expectations

In applying for a PhD studentship with the GW4 BioMed2 MRC DTP, you will be agreeing to the following arrangements:

1. All supervisors **and** co-supervisors will be expected to attend at least one DTP update session, which will take place in Cardiff in October during Orientation and in either Bath or Exeter in May/June during Congress.
2. Supervisors **and** co-supervisors will be expected to attend yearly supervisor training, which will provide you with a chance to meet with your supervisory team and build a supervisor cohort across the DTP.
3. Supervisors **and** co-supervisors consent to have their engagement with the DTP monitored.
4. Supervisors **and** co-supervisors will be expected to submit an online progress report for each of their GW4 BioMed2 MRC DTP students once a term.
5. Supervisors **and** co-supervisors to take part in at least one additional role during their allocated studentship:
  - a. Participation in project/student shortlisting
  - b. Participation in student interviews.
  - c. Delivering training either at Congress, Advanced Training Element sessions, Theme Events, or via the Online Core Training Platform.
  - d. Standing as deputy for theme or institutional lead.
  - e. Participate as tutor for our online CORE training programme

---

## DTP Expectations

In return, the GW4 BioMed2 MRC DTP will ensure to provide supervisors with:

1. Termly updates regarding the DTP programme, including key dates and upcoming funding opportunities.
2. Support materials via the GW4 BioMed2 MRC DTP website, regarding accessing finances and programme arrangements within the DTP.
3. A Supervisor Handbook at the beginning of each academic year, detailing any updates in arrangements within the DTP.
